**Address:** NISAR COLONY, 03817, Faisalabad, Pakistan (Home)

## ● ABOUT ME

Detail-oriented and highly skilled MERN (MongoDB, Express.js, React.js, Node.js) stack developer with a solid understanding of GraphQL, Typescript, Next.js and MaterialUI having more than 1.5 years of hands on experience, Determined to improve my skillset and working on more complex projects. Currently pursuing a Bachelor's degree in Computer Science, bringing a blend of theoretical knowledge and practical experience in developing dynamic web applications. Proficient in collaborating with cross-functional teams to deliver high-quality software solutions.

## ● WORK EXPERIENCE

03/02/2023 – 03/06/2023 Faisalabad, Pakistan

### INTERNSHIP GAMICA CLOUD

- Developed and maintained web applications using the MERN stack.
- Implemented GraphQL for efficient data querying and manipulation.
- Collaborated with frontend and backend teams to design and implement RESTful APIs.
- Conducted code reviews and participated in Agile ceremonies to ensure project milestones were met.
- Contributed to the improvement of development processes and best practices within the team.

31/07/2023 – 30/04/2024 Faisalabad

### MERN STACK DEVELOPER GAMICA CLOUD

1. Developing and maintaining full-stack web applications using the MERN (MongoDB, Express.js, React, Node.js) stack.
2. Designing and implementing RESTful APIs using Express.js for server-side functionality.
3. Integrating GraphQL for efficient data querying and manipulation.
4. Writing clean, reusable, and efficient code in TypeScript for improved code quality and maintainability.
5. Collaborating with front-end developers to integrate user-facing elements with server-side logic.
6. Working with databases such as MongoDB to store and retrieve data for the application.
7. Implementing authentication and authorization mechanisms using JWT or OAuth.
8. Optimizing application performance and scalability through code optimizations and database tuning.
9. Conducting code reviews, debugging, and troubleshooting issues to ensure the application's reliability.
10. Keeping up to date with industry trends and best practices in web development, especially in the MERN stack, TypeScript, and GraphQL ecosystems.

01/03/2024 – CURRENT Faisalabad, Pakistan

### MERN STACK DEVELOPER AUTOROBOS

- Designing and architecting scalable and resilient full-stack web applications using the MERN (MongoDB, Express.js, React, Node.js) stack, incorporating microservices and distributed architecture patterns for high availability and fault tolerance.
- Developing RESTful and GraphQL APIs with advanced query optimization techniques and schema design, leveraging Express.js and Apollo Server to achieve efficient data retrieval and manipulation.
- Implementing real-time features using GraphQL subscriptions, or server-sent events (SSE) for live data updates and collaborative functionalities in web applications.
- Designing and optimizing database schemas for performance, scalability, and data integrity, utilizing MongoDB aggregation pipelines, indexing strategies, and sharding techniques for large-scale data processing.

- Implementing advanced authentication and authorization mechanisms such as OAuth 2.0 with JWT (JSON Web Tokens), integrating with identity providers like Auth0 or custom authorization servers for secure user access control.
- Implementing serverless functions and event-driven architectures using Google Cloud Functions for server-side logic execution and seamless integration with cloud services

## ● EDUCATION AND TRAINING

CURRENT Faisalabad, Pakistan

**BS (COMPUTER SCIENCE)** Virtual University

09/01/2023 – 19/04/2023 Faisalabad, Pakistan

**WEBSITE DEVELOPEMENT** Gamica Cloud

## ● LANGUAGE SKILLS

Mother tongue(s): **URDU**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
<b>ENGLISH</b>	C2	C2	B2	C1	C2

*Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user*

## ● DIGITAL SKILLS

Website Developer | MERN Stack (MongoDB, ExpressJS, ReactJS, NodeJS) | Node JS (Express.js and MongoDB) | Javascript(Nodejs, Expressjs) | GrapphQl | Apollo | Git | GitHub | Problem analysis & Problem Solving | Error Handling | Communication and interpersonal | team-work in team | Detail-oriented Time management | Javascript / Typescript / Node / Express | bootstrap/talwindCSs/Mui/Sass
